About the College
Government Arts College, Paramakudi is one of the affiliated Colleges of Alagappa University, Karaikudi. It was established with programmes B.Sc., (Biochemistry) B.Sc., (Computer Science), B.Sc., (Electronic) B.B.A., and B.Com., in 1995. Our college is located at Venbani Village with 12.75 acres and 4000 sq.m. Our college recognised under 2 (i) & 12 (B) of the UGC Act 1956 from 2009. Our College was Re-Accredited NAAC with B grade in 2016. Our College has promoted as first grade college by the Government of TamilNadu from 2017. At present, our college has being offered with 12UG, 10PG, 7M.phil., and 6 Ph.D., programmes. Our college also contains library and Laboratory for several departments separately. The important goal of our college is to serve higher studies to poor people and teach Love, Discipline, Knowledge to them.

About the Department
The department of Biochemistry was established in the year 1995. Our department offers B.Sc., from 1995, M.Sc., from 2012 and M.Phil., from 2017. Our department laboratory established with basic to advanced instrumentation facilities to promote the research activities among the students and the faculty members. Ph.D, SET qualified and dedicated faculty members are working in our department. Faculty members covers a wide area like Clinical Biochemistry, Plant Biochemistry, Biofertilizers, Cancer etc. We have MoU with reputed research institution of Tamil Nadu to promote the skill development, research activities among the students and the faculty members. We have also well established library with more than 1000 books for research and teaching-learning process of our department faculties and students.

About the Workshop
Entrepreneurs have been creating new jobs and making significant contribution to the country's economy. The main objectives of this workshop is to create a awareness among the highly energetic undergraduates, postgraduates and young research scholars and to utilize skill development programme offered by the government for budding entrepreneurs, funding opportunities in the field of life science sector and to utilize this knowledge to commercialize life science thoughts to develop an innovative real bio-entrepreneur. This workshop will also offer the participants to understanding about fundamental aspects of entrepreneurship, various technical methods followed by the entrepreneurs and the issues concerned in the commercialization of technologies in life sciences sector. This workshop will promote the life science graduates learning about the available opportunities in bio-economy and build a career as an entrepreneur in life sciences sector.
